Painting

PROFESSIONAL SUMMARY

Versatile Full Stack Developer with around a year of experience in MERN stack, Python, and PostgreSQL. Skilled in building robust solo and collaborative projects with a focus on performance and scalability. Adept in problem-solving, collaboration, and delivering efficient web applications meeting industry standards.

WORK EXPERIENCE

Metta Social Solutions Pvt.Ltd

Full Stack Developer

January 2024 - November 2024

Job responsibilities:

- Implemented React Query to streamline UI-backend integration and optimize data flow.
- Delivered Google Maps API integration from concept to completion, including real-time filtering. Enhanced performance with lazy loading, server-side pagination, and code splitting.
- Built dynamic autocomplete search with Next.js and React Query, achieving 30% faster response times.
- Wrote end-to-end test cases with Cypress, ensuring reliable UI functionality.
- Developed RESTful APIs using Node.js and Python, designed efficient CRUD operations with PostgreSQL and MongoDB.
- Optimized multi-table join queries with custom sorting and pagination for enhanced performance and reduced API response times. Built and optimized APIs in a microservices architecture, ensuring seamless communication and improved user experience.

PROJECTS

1. Dashdonation(Charity Hero) | |

React | Redux | Node.js | Express.js | MongoDB |  
Razorpay

- Developed an intuitive frontend for the admin panel using React with a focus on responsive design and accessibility.
- Developed RESTful APIs using Node.js and Express.js for the admin section and website.
- Integrated Razorpay for secure and reliable donation processing, ensuring smooth transaction flow.

ACHIEVEMENTS

Zoom Marathon Challenge  
Masai School, Bengaluru
